There should be proper sanitation,well cleaned atmosphere,proper sitting system for students and good college campus.
There should be regular classes in your college, our wards come and say that there was no class, that's why we went to ridge, jhakoo or somewhere other places
There should be studying sumoothly and there should be a canteen
There will be an extra class for self defence of girls
they should try to interact more with the students and also career guidance should be provided by experienced professors.they should also try improving time management for example one class is at 10.00 a.m and than the next class is about 2.00 o'clock which leads to time wastage.
Respectfully, A parent

Yes i want to suggest you people that how you can take the exams of 1st year when you already started the second year classes and its already too late and of you take exams now then it will effect the whole system. How students will be able to complete the syllabus of 2nd year in just 3-4 months left after exams. And also please focus on the infrastructure of the college like providing the clean toilets, new canteen, also please make sure that teachers will be more serious about teaching as they are not taking regular online classes and not even responding to students doubt regularly.
You should avoid to reopen college in this panedamic.We need our children's saftey first.And you should also avoid their exams.
