The subject EVS was an unnecessary subject which just need an explanation and activities related to it because it does not connect with some of the subjects and just was the burden instead they should have a personality development subject as a special for the future interviews and jobs.
For the teachers, to be more into teaching not into attendance. We get tantrums from the teachers as well for the same thing all over again. Even if we are late for the class due to genuine reasons it is taken as an excuse and we are tagged as irresponsible. We try our best but teachers should also understand if we're getting late for the first class it might be due to some genuine and serious issues. I come from Mehli and everyday I meet with traffic in several places like Vikasnagar, Bcs , khalini and even in Bemloe. So no matter how early I go for the college I'm always stuck in traffic. It is a kind request for the department of commerce and especially Mrs. Shivani that if a student is late it is due to the long traffic that every individual face in the morning not every student make excuses.

Economics without statistics doesn't make sense. Students who are ready to study Stats should be taught irrespective of result .

In economic Statics should be applied .
Very good
Alright ok
I didn't have any Idea 💡
Extra skill courses should be taught
Perhaps syllabus may need a change but the teaching style needs a lot change . If the teachers may not hurry to just compl te the syllabus but check for students understanding and their knowledge and prepare there lectures according to students' benefits than it may be more beneficial for the students. And teachers should also try to teach students bilingually in both Hindi and English.
There should be a good ground
The teaching style needs change because teachers need to focus more on students understanding and should provide them overall knowledge and also share skillfull things. Teachers should not always aim to only complete their syllabus but also check for students understanding. And most importantly teachers did not inform the students if sometimes class is not being held they should be More aware towards using the WhatsApp groups. And shall be teachers responsibility to mark attendance and not ignore it or see it as a burden.
No not now
Teacher should be more comparative in colleges
All done

Hindi should be eliminated for those who are not interested 👍

It become difficult for students of english medium to get these books . We has to order books from delhi . HPU don' t print these books in english medium .

Teach us those things which are going to help us in future .some of the concept are use less

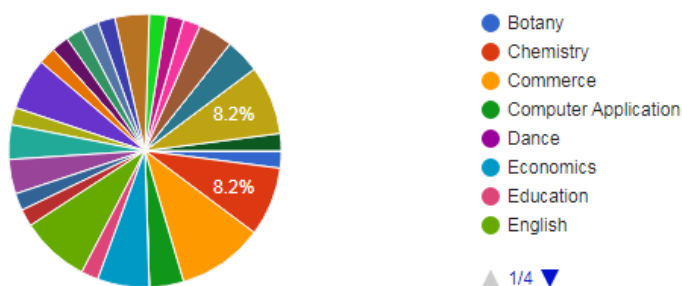

The syllabus should be updated and new things should be added to it. There is no mention of new technologies in the current syllabus. The course syllabus now doesn't really provide any benefit to the students. More skill based curriculum should be added.
Some other general knowledge syllabus
Improve the classes
Changes the syllabus
